

Aluminium Canopy P1400A-L

Technical details

Width: 1400 mm
Length: 900 mm
Height: 170 mm
Weight: 7 kg
Load capacity: up to 95 kg / m³
Impact resistance: 10 kgs
Wind load resistance class: Class 4 (170 N/m²)
Operating temperature: -40°C - +125°C
Model: P1400A-L
Article number: ST901013

Important information!

- Read the assembly instructions carefully.
- Check the canopy for any damage before installing it. No warranty and/or liability is accepted for damage to canopies that have already been installed.
- The canopy may only be used for its intended purpose; otherwise, product liability will be void.
- Not intended for commercial use.
- Clean the canopy at regular intervals of around 3 months. Use only cleaning agents recommended by the retailer or manufacturer. Do not clean with solvents, thinners, scouring agents, or similar products.
- Car polish is suitable for painted parts.
- The water drains must be checked and cleaned regularly, otherwise there is a risk of water build-up.
- The fastening materials must be adapted to the respective surface. Adequate fastening must be ensured.
- The canopy must be cleared of snow and ice loads.
- No modifications may be made to the canopy.
- Installation of the canopy should be carried out by at least 2 people. Additional sealing using commercially available silicone is required.
- Recommended working temperature: minimum +10°C.

WARNING!

Risk of accident! The canopy is not load-bearing and must not be stepped on!

Simplified EU Declaration of Conformity (CE)

Schartec hereby declares that the canopy type P1400A-L complies with the following directive 2011/65/EU (RoHS) and standards:

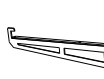

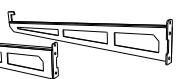

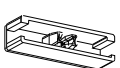

EN 13561:2015 + AC:2016
EN 55015:2013 + A1:2015
EN 61000-3-2:2014
EN 61000-3-3:2013
EN 61547:2009
